

LLC 1000W

End-of-Life Information

Grundfos LLC 1000W must be disposed of according to local regulations by using a public or private waste collection service. If this is not possible, contact the nearest Grundfos company or service workshop.

Safety Risk

- Safety related to materials used
There is no risk for people during the disassembly process posed by the materials used for the product.
- Safety related for handling the product
There is no risk for people when handling the product.

Disassembly of the Product

The main materials of the components are:

- Plastic
- Stainless steel
- Rubber, NBR
- Electronics scrap

and can therefore be recycled to a large extend – depending on the national possibilities for recycling.

The unit is assembled using screws and can be disassembled with standard tools.
